THE EARTH.

THE QUESTION AS TO ITS AGE AND ORIGIN—WHAT A FRENCH SCIENTIST HAS TO SAY ABOUT IT.

M. P Malet, a French scientist in his book on Land and Water, the perplexing question of the earth's age and origin He discards the Plutonic and Neptunian theories as based on unnatural and deceptive emanations and unnatural data, and evolves a theory of his own, which he expresses in the following series of postulates (1) There was a vapor mass floating and gravitating in space. (2) This mass held in it the base of all the elements. (3) As the elements are the elements of light now, so were their bases the beginning. (4) The light of heaven came from the vapor mass. (5) The vapor was the storehouse of light (6) The motion of rotation was converted into rotation on its axis. (7) The action of rotation was converted into revolution around a centre of attraction. [These actions are demonstrated by the ... and under these actions the entire mass became subject to the great law of ... (8) The entire surface of the mass slowly under the influence of the ... under this influence the lightest gases were attracted from the light. (10) The gases which became air and formed the envelope (11) The gases were condensed into liquid formed the envelope or ocean. (12) The vapor mass became solid gravitating to their own centre gradually consolidated into the solid the earth the silicious rocks M ... that these postulates were proved by the liquefaction and solidification by M. Cailletet and M Raoul ... that they are inevitable results of the action of light on the vapor mass the beginning of time. " This light, he says ... wary streams on the wandering ... and reduced it to obedience to law ... they are. There are no phenomena ... do not follow on in their natural course from this beginning

NOTES AND COMMENTS

Emerson speaks of the tremendous risks that are run when a thinker is let loose on this planet but the owners of gas stock will be inclined to think that the letting loose of an inventor like Edison is something more to be dreaded

It is said that the whole population of the world (estimated at 1 440 000 000) could easily stand on the Isle of Wight 93 341 acres But there would not be any room for the young lady of the period to swing herself around in a circle and pick up the end of her skirt

Reasons why we shall draw gold from Europe, taken from the reports of our department of agriculture, as to the crops we have to market First, a corn crop of 1,300 000,000 bushels Second a wheat crop of 400 000,000 bushels Third, a cotton crop of 5,250 000 bales We could add to this list, but it will do as it is

Brother Kimball, in an address before the Congregational club in Boston said that he at first struggled against going into the work of raising money to pay church debts but the more he fought against it the more he felt it his duty to engage in it He has secured pledges to the extent of over $1 500,000 and steadily refuses to receive a cent of compensation for his services

The complete mortality statistics for New York city for the months of July August and September, show that during this period the death rate was lower than has been known for twelve years The total number of deaths during the three months mentioned was only 7,345, against 8 165 in 1877 This is a very large decline and speaks well for the sanitary condition of the city

Time and again it has been demonstrated that the United States is not a monument building country The action of the Morton monument association is added evidence of this The design originally was to erect a memorial hall but it is so apparent that sufficient funds cannot be obtained for that purpose, that the idea is abandoned and the plan of a personal monument over the grave is substituted Even then the shaft will have to be a modest one to accord with the means of the association

PERSONAL AND GENERAL

Will they never cease Pelton poor Tilden about this little ciphering matter? A man must be Marble to stand it

Democrats in Washington say that Tilden is dead and that they are half of it But after life's fitful fever he doesn't sleep well The old sinner has bad dreams

Butler's Cape Ann Granite company only pays its hands from eighty to ninety cents a day 'Twas ever thus The love of demagogues for the horny handed is only skin deep Widow Butler's name should be changed to Old man not afraid to humbug the people

Army officers at Washington do not believe that any serious notice will be taken of Gen Gibbon's charges against Gen Pope as the dispute is an old one and Gen Gibbon could have filed these same charges any time within the last five years Besides these reasons the matter will be thoroughly disposed of in the Fitz John Porter inquiry

Thurman Petering Out

Washington Letter Philadelphia Times (Ind Dem)

Thurman is now 65 years of age He has always been a generous eater and a generous drinker and his party friends and associates ... have noticed his failing rapidly for several years He has been the leader of his party ... and his labor has been ... His ... He was always eager to combat but lately it has been noticed that after a big effort he was entirely ... unable to do anything for a day or two ... present attack is nothing more nor ... apoplexy and ... he never ... be a broken man

The War Cloud Blowing Over.

London Nov 2—It looks less war like again There is a growing feeling that the postponement of the British expedition against Afghanistan means its abandonment Leading Russian authority takes the same view and all parties to the general European war appear to be again seeking a diplomatic solution of vexed problems Meantime the fact remains that Russia has not relinquished one foot of ground occupied by her at the end of the war and all evidence of her warlike preparations indicates that she has no intention to retire

English Municipal Elections

London Nov 2 —Municipal elections held throughout England and Wales yesterday were mostly contested on political rather than local issues The *News* claims that on the whole the balance of changes favors the liberals

POLITICAL NOTES

A *Times* Washington special says Speaker Randall places the Democratic majority in the next house at 35

Boston *Post* Senator Bayard is a grand figure just now Given an opportunity his would be the saving name of our generation

Representative Thornburg of Tennessee, gives an encouraging report about the campaign in his state and is confident that the Republicans will gain two congressmen

The official returns from Iowa are as follows Hull, (Rep) 134 503, Farnsworth (Dem and Flat Fool) 125 11 Hull's majority 9 389

The New York *Tribune* announces that the parties to the cipher dispatches will soon have a chance to tell all they know about them in court under the pains and penalties of perjury

San Francisco *Chronicle* Gramercy is a corruption or contraction of God ha' mercy!, but now they call the park in New York where Samuel J Tilden resides by its original and full name

A Greenback idiot by the name of Cook—"Judge Cook —in Iowa felt so good after his election that he burned his old coat at a glorification meeting in his own town because he had once worn it as a Republican

Senator Dawes of Massachusetts is far from sanguine that Butler will be defeated and believes it can be accomplished only by bringing out every Republican vote He thinks the great danger lies in the indifference of the Republicans and a light vote

It is stated on authority of telegram from Washington that the Potter committee will enter into an exhaustive investigation of everything concerning cipher dispatches and will subpena Marble Pelton Coyle Woolley Smith Weed and all persons who can throw any light upon the subject

Springfield (Mass) *Republican* Experience has proved that neither Washington authorities nor federal troops can prevent outrages by Democratic Bourbons in the south The men that can prevent them are the Hamptons and it is the blunder of the South Carolina governor's life that he does not insist upon fair play

Washington special Postmaster General Key took advantage of his trip to the Pacific coast to feel the popular pulse and he says he was greatly astonished to find the Republicans so generally in favor of nominating General Grant He believes the advocates of a strong government will rally under Grant and that if nominated he certainly will be elected

Advancement for Sharp and Quick Answers

[From the New York Times]

A pretty long list might be made of men who have owed their advancement in life to a smart answer given at the right moment One of Napoleon's veterans who survived his master many years was wont to recount with great glee how he had once picked up the emperor's cocked hat at a review, when the latter not noticing that he was a private said carelessly Thank you captain In what regiment sire instantly asked the ready witted soldier Napoleon perceiving his mistake answered with a smile In my guard for I see you know how to be prompt The newly made officer received his commission next ... A somewhat similar ... of Marshal Suvoroff who ... a dispatch from the hard ... a ... to confuse the messenger by a series of ... sical questions but found him fully equal to the occasion How many fish are there in the sea ... All that are not ... caught ... was the answer How far ... it to the moon Two of your excellency's forced marches What would you do ... in giving way in battle? I'd tell them that the enemy was ... of whisky just behind the enemy's line, ... What's the difference between your colonel

and myself My colonel cannot make me a lieutenant but your excellency has only to say the word I say it now then answered Suvoroff and a right good officer you'll be

Conkling's Sarcasm

From a recent Speech at Philadelphia]

Yet there is much that is encouraging in the south When they go gunning for negroes or revenue officers they observe the game laws They do not shoot them out of season They only kill them when it is necessary to prevent the collection of the revenue or to carry an election But that is not all that is encouraging Wade has actually offered to allow the laws of the United States to be carried out He will allow the revenue to be collected if the government will allow him to receive it Wade Hampton offers to assist the United States There is something refreshing in this But that is not all When Republicans hold meetings now they never kill more than one or two and not so many if they keep still In to day's papers we are told the Democrats went to a Republican meeting and loaded a cannon with tenpenny nails They trained it on the speaker and covered him with 500 rifles but he did not say anything and they did not shoot

Man and Woman.

[Mrs Roberts in the Washington Capital]

Marrying a man to reform him is like being measured for an umbrella It may or may not be satisfactory but you might as well try to make a politician honest as to talk to a woman who loves a man No matter how worthless he may be she will brave everything for him and I wouldn't give a snap for her if she didn't Not long since, on the avenue I saw a man respectable looking in a helpless state of intoxication and a policeman on each side of him taking him to the station house behind him was his wife a young nice looking well dressed woman She paid no attention to the rabble following or the wondering looks of the passers by but stuck by him trying to pacify and quiet him I could not help thinking how little a man would stand by a woman Man is of the nobler sex, and a superior being but he will get a woman in trouble and leave her to get out the best she can

THE SILVER QUESTION AGAIN.

We shall have more of the silver question. On authority of Washington dispatches it is stated that Secretary Sherman will, in his annual report in December, recommend further limitation of the coinage of the silver dollar. This statement received confirmation by the secretary in his speech at Cumberland, Md., a few days ago, upon which occasion he said: "The coinage of $2,000,000 monthly of silver dollars of full legal tender is a disturbing element which we cannot now compute. We can only hope that before its issue is greatly increased congress will either limit its amount or make it contain enough silver to make it equal in value to gold." Dispatches add that this attitude of the secretary is deemed important, in view of the report that a combination of silver-bullion holders is now forming, having for its object the agitation of a free coinage act during the next session. As Secretary Sherman's views are doubtless shared by the president, the veto of any such scheme is certain. It is gratifying to observe that the secretary is now taking a pronounced position against the silver fallacy. He has increased the strength of this delusion heretofore by paltering with it. Coinage of the silver dollar must be restricted, or silver enough must be put into it to make it worth a dollar. The alternative is what has been foreseen from the first by every person of judgment, namely, that the business of the country will go to the silver basis of 87 or 88 cents on the dollar, while gold will be banished from the country and greenbacks, instead of being at par with gold, will sink to the silver level. Unless congress shall repeal or greatly modify the silver law this result is as certain as that the waters of the globe find their level in the sea. But ignorant men and demagogues, in and out of congress, will no doubt resist with all their might the operation of this inevitable law of financial values. This law will, however, enforce itself against all their expedients and impediments. The country is better prepared to hear and receive truth on this subject than a year ago. A saving common sense, which Burke calls the genius of mankind, will assert itself at last, because the law of reason is part of the general and overruling law of nature, or the nature of things, to which all affairs of man must conform. The law of values and prices operates constantly on its own principles and with its own forces; its tendency, the same as that of the law of gravity, is all the time toward equilibrium; and though legislation may for a period disturb its action, yet eventually it sweeps all these obstacles away and settles everything in accord with its own modes and its own principles. Therefore all financial legislation which does not conform to the known law of values is disturbing and mischievous, and instead of helping the industry of the country adds every time to its embarrassments and burdens. A telegram printed to-day shows that even India is preparing to reject the silver and get on the gold basis. The commercial tendency in this direction is overwhelming and irresistible. So complete is the ascendency of British influence and power in the commercial world that, being itself in accord with the natural law, it makes the financial law of nations, which the world is constrained to recognize and acknowledge, whether it is willing or not.

RUSSIA AND ENGLAND.

All accounts go to show that Russia, instead of withdrawing her troops from Turkey, is strengthening her force at every point. It begins to be evident that she will never relinquish her present advantages. Latest dispatches say there is quieter feeling in England; but if this is so it can hardly be the fruit of anything but a growing disinclination of the English people to be driven into war for protection of the Turk. Russia's course makes it evident that England must shortly fight, or abandon utterly her policy of interposition. It is claimed that municipal elections in England and Wales show a turn of public opinion against the party of the government. Other dispatches of late have claimed that those who questioned the wisdom of Beaconsfield's policy on the eastern question and predicted that the diplomatic arrangement at Berlin would prove to have settled nothing for European peace, while it involved England in new and weighty responsibilities, political, moral and financial, without adequate return, are winning numerous adherents in view of current events. Everybody sees that Russia has neither been put under bonds nor compelled to retire from her menacing position. A long cable dispatch, presenting a review of English opinion, says that the Afghan policy is also criticised as another blunder, because war with the ameer, even though the British arms shall achieve success in the field, will diplomatically level the mountain barriers still separating Russia from British India, and give the czar active sympathizers, and invaluable allies, if ever in the future he shall justify the English jealousy and distrust of his purposes which afford the motive for the Afghanistan campaign. There is a decidedly uneasy feeling in intelligent circles caused by the conviction that unless the British policy is radically changed, next spring will find England again involved in expensive war, at a time when the country more than ever needs repose, economy and reduced taxation, in order to revive her languishing industries and relieve the popular distress. Some of the wisest among the Conservative leaders are beginning to enquire why England should not abandon her traditional jealousy of Russia and her policy based thereon, as was done with France, under the late empire—allies for common interests and against common rivals. Perhaps it is in obedience to this changing sentiment, that the announcement is now made that the military expedition against the ameer, which has been in active preparation for the last two months, is postponed.

ELECTRIC LIGHT.

Edison, it is well known, is working to perfect and make available the electric light. Through the New York *Sun* he gives information as to his progress. He says: "We could lay the wires right through the gas pipes and bring them into the houses. All that will be necessary will be to remove the gas burners and substitute electric burners. The light can be regulated by a screw, the same as gas. You may have a bright light or not, as you wish. You can turn it down or up, just as you please, and can shut it off at any time. No match is needed to light it. You turn the cock, the electric connection is made, the platinum burner catches a proper degree of heat, and there is your light. There is neither blaze nor flame. There is no singing nor flickering. I don't pretend that it will give a much better light than gas, but it will be whiter and steadier than any known light. I do know now that it will be cheaper than gas. It will give no flames nor smoke. No carbonic acid gas will be thrown off by combustion. It will be a great thing for compositors, engravers, and all forced to work during hot summer nights, for it will throw out hardly any heat. Shades may be used the same as shades upon gaslights, but there will be no real necessity for them. The wind can't blow it out. There can be no gas explosions, and no one will be suffocated because the electricity is turned on, for it cannot be turned on without lighting the burner. A person may have lamps made with flexible cords, and carry them from one point to another."

The certifying expert gives notice that he is loading up that awful blunderbuss of his, and will let it off at "Old Nes." The effects of that fulsilade will be powerful chiefly in the recoil. It has often been the case heretofore with him; but there is a sodden and phenomenal stupidity which takes no lessons from experience. Bray it in a mortar, and the very next thing it does is to provoke the pestle again.

DIED.

In this city, Saturday evening, Nov. 2, Nettie A. Shindler, aged 13 years, 11 months and 13 days, daughter of G. Shindler.

Funeral services at residence, corner of Sixth and Jefferson streets, Monday, at 2 o'clock, P. M.

Nettie was a darling little girl—one of the nicest in all the circle of our acquaintance. Refined in her taste, neat as well as beautiful in her person, sweet and loving in her disposition, gentle in her manners, she was a ray of sunshine at home and among her friends. To know was but to love her.

"To such the child whose early feet
The paths of peace have trod—
Whose secret heart with influence sweet
Is upward drawn to God."

A short time before she died Nettie sang the sweet little hymn:

"O, bear me away on your snowy wings
To my immortal home," etc

"Blessed are the dead which die in the Lord."

"WHO TELLS THESE LIES?"

So much dirt is always thrown at any new enterprise—no matter how worthy—that the writer of this item deems it time worse than thrown away to pay any attention to or answer the libelous *lies* published in the Salem *Statesman* and again produced, with some slight changes, in the *Standard* and *Bee* of Saturday's issue.

At the solicitation, however, of many friends of the D. S. & G. R. R. R. Co., I have consented to give the public the truth of the matter over my own signature, trusting that in the future if the above mentioned journals (or any other) have any communications, favorable or otherwise, in regard to the above mentioned transportation company they will at least require the authors to append their signatures, in order that we may know who these clever talebearers are.

The truth of the matter referred to is simply this: The Imperial Mills at Oregon City, owned and operated by D. W. Burnside & Co., is so unfortunately situated that the O. S. N. Co. own and control all the approaches to it by the river. This institution sent their agent out along the line of the narrow gauge railroad to purchase wheat for them, which he did, and ordered the same shipped to Dayton by cars, *demanding* at that point, to have it turned over to the O. S. N. Co's boats, to be delivered in the basin at Oregon City for their mill. This *modus operandi* the R. R. Co. objected to, as they are prepared with their own line of steamboats to forward and deliver all freight to any and all points on the Willamette river. If the mill company wanted to purchase wheat along the line of the railroad they certainly ought to have secured the privilege from the O. S. N. Co. permitting the R. R. Co's boats to land it at their wharf, before they purchased it.

It is a matter of no importance to the railroad or the connecting line of steamboats who they carry freight for, but being bulldozed into giving it to other lines of transportation, at the sacrifice of their own, would be too much like permitting a rival in business to sell his goods over your counter. The railroad company are prepared to transport Mr. Burnsides' wheat to his mill as rapidly and cheaply as any other line, and will do so as cheerfully as they would land it at Portland, and when I add that the railroad company's boats have offered to pay the O. S. N. Co. fifty cents per ton (the same as they pay for passing its freight through the locks and canal) for the privilege of going into the basin to land, and accommodate Messrs. Burnsides & Co., the public and all interested parties can draw their own inference as to who are the bulldozing parties in the transaction.

Z. J. HATCH.

Billiard Challenge.

PORTLAND, Nov. 2, 1878.

AS I HAVE BEEN INFORMED SINCE THE late match game of Billiards between Mr. Benjamin and Mr. Josh. Davies, that many people express themselves that Mr. Davies did not play his usual game at that time, and that they still think he is the Champion Billiard Player of Oregon, I will now challenge Mr. Davies to play me a match game of Billiards—eight hundred points—four ball American carom game for from $250 to $500, or for the Centennial Medal which he now wears, in the City of Portland, at any time or place he may mention.

Very resp'y, WM. J. ROACH.

MONDAY MORNING, NOVEMBER 4, 1878.

CITY.

DEATH OF MR. LIDDY.—The many friends of Mr. James C. Liddy will be startled and grieved to learn of his death, which occurred at about 11 o'clock last night at his rooms on First street between Oak and Pine. About a year ago, while engaged in the hack business, he drove, while hurrying along [illegible] street one dark night into an open fire-cistern, and in falling received a bruise on one of his thighs, which developed into an aneurism and caused a long and painful confinement and permanent disablement. For a dozen weeks or more he had been able to walk slowly about, and had recently opened a little cigar store near the Occidental Hotel. He attended to the business of this place yesterday, and persons who saw him late in the evening state that he was as well as usual. At a few minutes before 10 o'clock he went to his room and retired for the night, and shortly afterward was taken with a fit or spasm. Dr. Saylor was sent for, but when he arrived the unfortunate man was dead, having survived the spasm but a few minutes. Undoubtedly his death resulted indirectly from the aneurism. Mr. Liddy was about 35 years of age and had lived in Portland for ten years or more, and during most of that time was engaged in the hack business. He was a genial gentleman, courteous in his treatment of everybody and warm and hearty in his friendship. For some years he had been prominently connected with Oneonta Tribe O. R. M. His funeral will probably be conducted by the members of that order. The coroner will examine into the causes of his death to-day.

MR. WALDRON'S DEATH.—In speaking of the death of Mr. H. J. Waldron, which occurred at the The Dalles a few days ago from heart disease brought on by exertion at the fire, the *Island Empire* says: "The excitement of the fire had been too much for him, and, on going home, he complained of pain in his head. His wife applied restoratives and he sank into slumber, from which he passed into a better world. His house was empty, and it was with difficulty his wife could get out a messenger to send for a physician. Before one could arrive his life was virtually extinct. Everybody mourned him, and those who had at times blamed the erratic temper forgot all in their grief for the loss of the enterprising and public spirited citizen. Had disease wasted him slowly any man could have reconciled it much easier, but it was hard to see this active and energetic man cut off in an instant without warning of the fell Destroyer's dread approach. But in the midst of an active and useful life, our friend has been called away from us. Let us not forget him in his many good traits and sterling qualities. His funeral took place on Wednesday and was largely attended by all our citizens, who deplored the loss of one who was always foremost in acts of public enterprise. His bereaved family have the sympathy of the entire community, though his industry has left them handsomely provided for."

THE STRANDED VESSEL.—The British ship *City of Dublin*, which was stranded recently and stands about a quarter of a mile south of Point Adams lighthouse, has been recently examined by a board of surveyors, and they have arranged a plan by which it is thought she can be floated off and made as good as ever. Her owners in Europe have been communicated with by cable and they have ordered the attempt to be made, and to stand the expense whether it is successful or otherwise. The vessel lies bolt upright, notwithstanding a small hole in her bottom, which in two weeks has only let in water to the depth of five feet in her hold, is not strained and is not in any way permanently damaged.

INSTALLATION. — Friday night Brooklyn Lodge, No. [illegible], I. O. G. T., installed the following officers at their lodge room in East Portland: W. C. T., Edward Long; W. V. T., [illegible] Kelly; W. R. S., Albert Cresswell; W. F. S., McKinstry; W. T., Milton Green; W. M., Pres. Murray; W. C., Enoch Turner; W. I. G., Scena Kelly; W. O. G., James Schaffer. The installing officer was the past worthy secretary, W. S. James, who performed the ceremonies to the satisfaction of all. The lodge is in a flourishing condition at present, having some forty-four members. After the installation ceremonies a delicious supper was served up by the sisters of the lodge.

PILOT COMMISSIONERS.—The pilot commissioners of Washington territory held a meeting at [illegible] City, October 31st, and also at Fort [illegible] on the 1st of November. The commissioners issued the following branches for bar pilots: H. L. Hansen, pilot on tug *Astoria*; Wm. [illegible], tug *Columbia*. The following persons were commissioned to act as pilots on the pilot schooner *Rescue*: Thomas Doeg, M. Staples, Eric Johnson, Thomas Masters, Chas. W. Wood.

FELL IN A FIT.—Yesterday afternoon a man whose name is not known fell in a fit at the intersection of Alder and First streets. He struck his face against the street-car track with much violence cutting his cheek shockingly. He was picked up in a helpless condition and conveyed to a room near by and medical assistance called. At first the man was thought to be intoxicated, but it was soon ascertained that he had fallen in a fit.

THE REPUBLIC.—The steamship *Great Republic*, after several annoying delays in the passage up the river, arrived at her dock yesterday afternoon at about [illegible] o'clock. She brought up, besides a large amount of general freight and a goodly number of passengers, sufficient rail iron to complete Gaston's narrow gauge road to Dallas. She will sail for San Francisco on Friday at 6 A. M.

DEATH FROM DIPHTHERIA.—W. H. Conyers, the sheriff of Columbia county, has had the misfortune to lose his eldest son, a promising lad of almost seven years of age. He had been sick for four weeks with diphtheria. There have been over thirty cases of the disease in that neighborhood, six of which have proved fatal. There are no new cases.

SHIPPING NEWS.—A dispatch from Astoria yesterday states that the British bark *Killena* has sailed for the United Kingdom; also the revenue cutter *Tom Corwin* for San Francisco. The bark *Talbot* sailed Saturday for San Francisco from Seattle; also the brig *Tanner*, from Port Blakely for Alameda.

LOSSES.—Following are the losses by the Dalles fire: Comfort & Hall, $1,300; French Bros., $2,000; L. D. Frank, $472; Sanders & [illegible], $[illegible]; Mrs. J. P. Booth, $500 on building; Bonnar and Somerville, wool destroyed in the French warehouse, $1,500; Hartman, stock damaged by water, $250.

TARGET SHOOTING.—The Washington Guard will hold their annual target shooting and complimentary ball on Nov. 7th. The committee of arrangements will do all they can to make it sociable and pleasant for all those who attend.

ELLIOTT v. TEAL.—In the publication of the opinion in this case in our issue of Saturday last it should have been stated that the case was heard before both Field and Deady J. J., and that the opinion by Judge Deady was for the court.

MARRIED.—Mr. R. T. Robinson, of Forest Grove, and Mrs. F. A. Logan, of this city, were married last evening at the home of the latter in this city, Judge S. W. Rice conducted the ceremony.

DUCK SHOOTING.—Messrs. Clark, Berger, Lonsdale and Knott yesterday went some ten miles above Columbia slough and brought home 118 ducks.

FROM TILLAMOOK.—The schooner *Kate L. Heron*, arrived in this city at 11 o'clock yesterday. She brought a full cargo of salmon and general produce.

BUSINESS NOTICES.

Mrs. Geo. H. Clarke, the popular milliner, announces that she will for the next 60 days dispose of her large and fashionable stock of goods *below cost*. She is determined to close up by the 1st of January and that is why the lady will sell her goods at such a sacrifice. Ladies should not allow this opportunity to secure splendid bargains to pass unimproved. Read the lady's announcement.

AMUSEMENTS.

"L'ARTICLE 47."—This intensely emotional drama (by the author of The Two Orphans) was produced in this city Saturday evening at New Market theater. "Mlle Cora," the leading feminine role, was allotted Miss Jean Clara Walters. The entrusting of such a prominent and important character to Miss Walters was certainly most judicious. In the impersonation of "Cora," the lady more than realized the ardent expectations of her friends. There is in this play a constant, desperate conflict of pride, jealousy and affection, alternating fitfully with hopes and sorrows. Hate predominates for a time, but that strong passion finally yields to love so potent and absorbing that it enters the heart of the proud and revengeful Creole and asserts a possession indisputable and uncontrollable. One moment the haughty woman hurls threats and scornful invectives, and bitter reproaches in the face of the man she loves with a fierceness that is self consuming; in another she begs submissively on bended knees for only one smile, one caress, or even a look of reconciliation. In the mad scene she was painfully realistic. The leading characters in "Article 47" present powerful contrasts, and are colored with strong passions. It is impressively certain that in this play Miss Walters devotes to its interpretation her whole soul. During the more exciting scenes the lady does not descend to lifeless declamation. In the third act there is great opportunity for suppressed emotional and passionate display, of which full advantage is taken by vehement but self sustaining movements. She dressed the character in excellent taste. Mr. John S. Lindsay, the new leading man, made his first appearance in the prominent role of "Geo. Duhamel." Owing to the very short notice at which he was required to appear the gentleman appeared at a slight disadvantage. He played the part quite smoothly and effectively. Mr. Lindsay possesses a pleasant voice, a good stage presence, and acts with ease and care. The support was very good. Several new and handsome scenes from the brush of Mr. W. T. Porter added materially to the general effect of the piece.

MISS DARGON'S "LEAH."—Theater goers of Portland will be afforded a rare dramatic treat this evening. Miss Dargon will make her first appearance in the beautiful and intensely emotional drama of "Leah, the Forsaken," assuming the title role. This is one of Miss Dargon's greatest impersonations—a character in which this eminent artist has achieved some of her most gratifying triumphs and been accorded an enviable position in histrionic ranks. As an exponent of the dramatic art Miss Dargon has been pronounced by some of the finest critics in the country second to none in the histrionic world to-day. The New York *Herald* of a recent date contains the following complimentary allusion to the lady in "Deborah": "Miss Dargon achieved a decided triumph. In the fourth act Miss Dargon gained her chief triumph, and in delivering the curse she fairly roused the house and carried it with her. But it was in the last act that Miss Dargon won over her auditors. Coming back to view the desolation she had prayed for, 'Deborah's' heart is full of unsatisfied vengeance, but she is overcome by the knowledge that she is held in sweet remembrance by those she has cursed, and that 'Joseph's' child bears her own name. The sudden revulsion of feeling and the deep penitence of the woman, who has presumed to call down divine vengeance on those who really had done her no harm, was admirably portrayed." Mr. Lindsay will assume the character of "Rudolf," supported by the full company. The play has been carefully rehearsed, and will be presented with every attention to costume and scenic adjuncts. A large number of seats have been sold, and those who desire reserved seats should secure them at once.

MEETING OF THE PORTLAND BAR.

Saturday morning, shortly before the convening of the state circuit court, it was deemed advisable by a large number of attorneys who were present, to take some action upon the retirement of the Hon. E. D. Shattuck and the assuming of duties by Hon. C. B. Bellinger, his successor in office, the members of the bar were called to order and Hon. J. N. Dolph selected as chairman.

At the appointed hour the meeting was called to order by Hon. J. N. Dolph, who moved that Hon. Richard Williams act as chairman; which motion prevailed.

Mr. Joseph Simon was chosen permanent secretary.

Mr Thompson, chairman of the committee on plans, submitted the following:

PORTLAND, Nov. 2, 1878.

To the Members of the Bar of the Fourth Judicial District, State of Oregon: Your committee, appointed to offer such suggestions as upon consideration they should deem advisable relative to the proper action to be taken by the bar of the fourth judicial district in welcoming his Honor Judge E. D. Shattuck to the ranks of the profession and his Honor C. B. Bellinger to that bench, heretofore so worthily filled by his predecessor, respectfully report the following resolution:

Resolved, That the members of the bar of the fourth judicial district of the state of Oregon tender to Judge E. D. Shattuck and to Judge C. B. Bellinger a reception, to be given at Turner hall in Portland, on Thursday, November 7, 1878, at 8 o'clock P. M.

We respectfully submit the foregoing for the consideration of this meeting.

H. Y. THOMPSON,
J. W. WHALLEY,
JOHN CATLIN, Committee.

Mr. Dell moved the adoption of the resolution embraced in the report, which being seconded and stated, was discussed at some length by Messrs. J. N. Dolph, B. Killin, H. Y. Thompson and others.

Mr. C. A. Dolph moved to amend the resolution by striking out Nov. 7th and inserting as the time when the reception should be held Nov. 12th; the motion prevailed, and the resolution as amended was then adopted.

On motion the members of the bar in the state of Oregon were included in the list of invitations.

Mr Dell then moved the adoption of the plan.

Mr. Smith moved to amend by including the bench and bar of Washington territory, which motion also prevailed.

The plan as amended was then adopted.

MINES OF GRANITE CREEK, GRANT COUNTY, OREGON.

Reports from the mines of the above named district received here during the past week, establish the fact beyond doubt that they are permanent and extensive. The Monumental, at present development, shows a ledge 300 feet in depth and a level run from that depth 200 feet on the ledge, the face of which is still in high grade, ruby silver ore. With 300 tons on the dump and 4,000 tons in sight, large results are certain when the work of reduction commences. The Phil Sheridan mine, under active work will, in all probability, realize the expectations of those who are investing in it. This mine, at a depth of 36 feet showed a strong ledge one a half feet wide of ore assaying as high as $500 per ton. A shaft is now being sunk to cut it at a depth of 160 feet. Further discoveries of importance are being made in the district. C. S. Miller, general manager of the Monumental Silver Mining Company, in a letter to the office under date of the 24th Oct., states: "Quite an important discovery has recently been made by Beagle Bros, of a ledge about half a mile north of Sheridan, and I believe it is an extension of the Phil Sheridan. The ore is very rich, both in gold and silver. They took one ton of the ore to an arastra and got $500 in gold, and did not save the silver. They are down on the ledge about nine feet, and the ore is still very rich. This new discovery speaks well for the district, and adds to my confidence in the permanence of the Sheridan mine."

INTERESTING TO LADIES.—Dickey's "Creme de Lis" has now been before the public for ten years, during which time this beautiful preparation has met with the highest approval at the hands of the fair sex—being as all who have used it will verify, the only perfect preparation of its kind. Every ingredient entering the composition of Dickey's "Creme de Lis" is subjected to the most rigid test of modern chemistry, to insure the uniformity and purity of its combination, and neither time nor expense have been spared to make it perfect—it being well known the public will appreciate and support a truly meritorious article. Several new beautifiers under various names have lately started into existance, but Dickey's "Creme de Lis" has no competition in merit. Sold by all druggists.

BAPTIST STATE CONVENTION.

OREGON CITY, Nov. 1st, 1878.

The Baptist State Convention met at 9:30 A. M. After the devotional exercises, the state missionary made a report.

Rev. J. C. Richardson, the state missionary, showed in his report that much work had been done through the past year, and there is much more to be done, many have been made to rejoice in the good labors of this devoted Christain worker.

This report was followed by addresses from other leading members, Rev. H. W. Brown, the well known evangelist, made a good speech; E. N. James of W. T. was the next speaker.

He was followed by Rev. J. T. Huff, who has lately been on a missionary tour among the Indians in British Columbia. This address showed that there might be some for the fated "Red men," at least something more than to follow them with hostile forces. The speaker showed that the gospel is able to tame even the heart of the wild savage.

The convention then adjourned for dinner.

The afternoon session began at 2 P. M.; the educational work was the general topic. After some reports the annual educational sermon was preached by G. J. Burchett, President of McMinnville college. The speaker took for his text, "A perfect man."

The sermon was designed to show that education should be broad, broad enough to develope the entire and all the powers of man. High callings demand high culture. The sermon was followed by a warm discussion showing that the denomination is wide awake on the great interests of education.

The evening session began at 7 P. M.

Rev. A. J. Hunsaker delivered a sermon on the missionary theme.

This discourse found its way to all hearts and met with hearty applause.

The meeting adjourned.

BETHEL SERVICES.

The clear air and bright sunshine tempted quite a number of our citizens, and many seamen, to assemble at an early hour on board the beautiful ship *Shenir*. A marked stillness and desire to preserve the decorum of the hour prevailed. It is certainly something more than idle curiosity that draws so many to these services. No church service would have impressed an outsider more than the fervent prayer of the chaplain at the opening of the meeting. The singing was led by Mr. Cameron. Chaplain Stubbs then discoursed upon the first chapter of Jonah in his usual easy and natural style, so plain that none need go away and say "I could not understand the sermon." The word of God, and not the words of man, was made conspicuous. Already many men of the sea are inquiring "What must I do to be saved?" and some have found peace and joy in believing. We were much affected when the captain of the *Shenir* arose and spoke of the love of Jesus and the plan of salvation as revealed in the first and last chapters of both the old and new testament. He is evidently a *Bible Christian*. Would there were more like him, especially among the shipmasters. We understand there is to be a meeting aboard this ship this (Monday) evening, commencing at 7:30 o'clock.

MODERN MIRACLES.

"Dr. C. M. Wood, the well-known healer, returns to his practice in Portland, after a rest of six months. His great cures of men, women and children, some of which were published in THE DAILY and WEEKLY OREGONIAN during last winter, has brought hundreds of letters from anxious sufferers, desiring information as to the permanency of his cures. In order to satisfy those desiring such information, he will publish from time to time through THE OREGONIAN the original certificates of cures, and when possible, to communicate with such patients, a certificate of their present condition. $1,000 forfeited if every cure he has ever published was not genuine as stated.

Dr. Wood

Will heal the sick of chronic diseases, at corner of Washington and Front street, Portland. All curable diseases successfully treated when every other method fails. Dr. Wood cures by animal magnetism, and can point to the most wonderful cures ever performed by this method. *No medicine, no surgical instruments*—no pain whatever.

Cure of Dyspepsia and Chronic Diarrhœa.

For the benefit of suffering humanity I deem it my imperative duty to make known to the public what has been done for me by Dr. C. M. Wood. Having been subject to dyspepsia for some 12 or 14 years, and continuing to grow worse until about four months ago, when it ran into chronic diarrhœa and assumed a very dangerous condition—so much so that I found I would be compelled to stop my duties or find some relief, and having seen one of Dr. Wood's circulars, I concluded to consult him and finally to be treated by him for one month, the result of which I give in a few words; I feel that I am as sound as I ever have been, and that so far as my disease is concerned, I am perfectly cured.

JOHN E. CURRY,
Mailing Clerk, Oregonian Office.

PORTLAND, Oct. 31, 1878.

This is to certify that the above diseases, for which Dr. Wood treated me nearly one year ago, have never returned, and am as well to day as when the above certificate was written.

JOHN E. CURRY,
Mailing Clerk of THE OREGONIAN.

Dr. Wood cures the following diseases: Chronic Liver Complaint; Disease of the Kidneys; Dyspepsia; Indigestion; Spinal Complaints; Pains in Side, Back, Shoulders, Hips and Chest; Headache; Neuralgia; Heart Disease; Rheumatism; Chronic and Acute Female Diseases and Irregularities; Sore and Weak Eyes; Deafness; Ringing in the head; Bronchial Affections; Chronic Catarrh, and General Debility, caused by any of the above afflictions, at his rooms, southeast corner of Washington and Front streets, over O'Connor's store, up stairs.

FIFTY DOLLARS REWARD.

I will pay the above reward for the conviction of any party or parties who may sell dried fruits purporting to be dried by the Plummer Process that are not so dried. It is the duty of every merchant and citizen to see to it that our fruits are kept up to the proper standard. It is well known that fruits properly cured by my process have no equal in the world, and I propose to protect them against all bogus dried fruits.

CALIFORNIA
ROOT TEA.

The Reliable Cure for Chronic Complaints of Liver and Kidneys.

THE ONLY THOROUGH BLOOD CLEANSER. The most pleasing, grateful and satisfactory Strengthening Balsam known, constantly effecting surprising cures of wasting or debilitating diseases and complaints arising from weak or impure blood, feeble circulation or impaired digestion, when all modes of treatment fail. Is of great benefit in threatened or actual consumption and heart disease, owing to its peculiar and great influence on the circulation. For the ills and weaknesses of women it is Nature's most suitable and reliable remedy.

LIVER—KIDNEYS.

Its regulating and strengthening action on these organs is different to and more desirable than that of any article heretofore in use; for indigestion, biliousness, etc., as a tonic, anti-malarial, etc., it is unequaled, while in chronic complaints it gives relief when all other remedies fail, and it frankly acknowledged to be the only cure for many chronic complaints of a complicated nature.

CATARRH.

The success of the CALIFORNIA ROOT TEA in curing Catarrh is proverbial, and surprises many who do not understand the nature of this terrible disease, which in most cases can be permanently cured only through the blood by a thorough course of this vegetable remedy, conceded to be the only thorough and permanent blood cleanser known, a course of it completely eradicating for all time the most virulent types of blood and skin diseases, rheumatism, etc. All who use it, leading druggists and physicians gladly attest its great sterling worth. Sold in its truly vegetable form, in packets at $1; each packet makes a quart of rich balsam, of which the dose is two spoonsful three times daily, making its cost much less than other medicines. Make like tea or put in wine, etc.; pleasant to take when nicely sweetened. It is nature's life-bearing balsam—its success assured in advance in all cases. Ask for it and take no drugs or disguised mercury. Six pkts, $5 00.

REV. DR. CLARK writes

I have much pleasure in saying Fellows' Hypophosphites improved my general health amazingly It gives a clear skin and healthy countenance, but to know its virtues it must be used, and were it within the reach of all classes, I believe it would be used universally, yes, by the well, to renew their age, and by the sick, to make them well. It makes an old person ten years younger. "This witness is true." Would that I could more widely make it known for its virtues.

ALEXANDER CLARKE, D D, Amherst, N. S

I heartily recommend Fellow's Compound Syrup of Hypophosphites to all troubled with any difficulties or diseases of the lungs or nervous system, believing that had I not used it I would not now be living HARRIS COFFILL, Windsor, N. S.

Consulting Office for Consumptives, Western Medical Institute Cleveland, O }

MR. JAMES I. FELLOWS—Dear Sir We were induced to prescribe your Compound Syrup of Hypophosphites by Dr McMaster, and its use has been attended with such satisfactory results as to warrant our employing it largely from this time forward. A. SLEE, Sr., M D

DR. PAUL M. BRENAN.

His Wonderful Success

IN THE TREATMENT OF ALL

Chronic and Private Diseases.

He has astonished the People of this Coast by his skillful Operations.

HE HAS TAUGHT IN HIS

public and private lectures the true principles of health and life to both male and female He has also warned them against habits that would be likely to produce disease, in plain and comprehensive language. But where he has found them crushed and broken down by disease, mentally and physically, he has restored them to health and happiness, for it is well understood that without health there can be no happiness.

DR. BRENAN

has made a specialty in the treatment of the following diseases: Catarrh, Bronchitis and all diseases of the throat and chest, by an entirely new system only known to himself Diseases of the Kidneys and Urinary Organs, including Spermatorrhea, Seminal Weakness or premature loss of Manhood. In the treatment of these diseases he has made a world wide reputation by his astonishing success not only on this Coast but throughout the whole United States. Diseases of the stomach, bowels, liver and kidneys as well as all diseases of the blood and skin he has become master of, and never fails to give relief at once and permanently cures the case if he is applied to in time

THE DOCTOR HAS GIVEN SPECIAL LECTURES

to ladies only for years and is perfectly familiar with all female complaints, and understands their delicate and refined organization, as well as the proper remedies which should be used to allay their suffering and restore them to perfect health.

THE DOCTOR HAS THIS ADVANTAGE

over most physicians—he can tell the patients' disease the moment he comes in contact with them without any aid from the individual This accounts in part for his great professional success

All surgical operations can be performed by his skillful hand, and the patient need not fear the result.

DR. BRENAN

will send to those living at a distance and who can not well visit his office a list of Printed Questions and by the answers when filled out he can tell the disease as well as the proper treatment almost as well as seeing the patient personally and will forward the proper medicines, or instruments, to any part of the country with full instructions and advice. Each letter requiring advice or list of questions must contain two postage stamps

Everything strictly confidential and honorable.

THE DOCTOR

has studied in the best Medical Schools in Europe and three years in the Jefferson Medical College at Philadelphia, as more than one of the Medical men of the Medical Faculty in this State can testify.

CAUTION.

Persons coming to Portland, requiring medical treatment of the proper kind, who desire to consult with me, will please beware of persons who may try to coax them away to other so-called Doctors, through pretended friendship for the patients. Look out for them, they are knaves, prompted by selfish motives and what they can make. Be sure and ask for DR. PAUL M. BRENAN, the Medical Lecturer, and read his sign on his door

BEAUTY:

OR, THE

Secret of a Fair Face.

An Item of Interest to Every Lady who Desires to be More Beautiful than she now is.

Unfortunately not one woman in a hundred, subjected to the whims of an American climate, possesses that basis and starting point of real beauty—a pure and clear complexion. What nature has thus denied, art must be called upon to furnish. It can be done, it is done daily Prof W E. Hagan placed beauty within the reach of every unblessed daughter of Eve when he discovered that surprising article known in fashionable circles as the true secret of beauty, and called

MAGNOLIA BALM

The MAGNOLIA BALM is a sure device for creating a pure and blooming complexion. It conceals all natural blemishes in the most surprising and effective manner. It removes all roughness eruptions, redness, blotches, freckles and tan with magical power It drives away all evidence of fatigue and excitement. It makes the plain set face beautiful It gives the complexion a dazzling purity and makes the neck, face and arms appear graceful, rotund and plump It makes a matron of 35 or 40 look not more than 20 years old, and changes the rustic maiden into a cultivated city belle

The Magnolia Balm removes all blemishes and conceals every drawback to beauty and, while it is as harmless as water it is so life-like in its effects that the closest observer cannot detect its use. Ladies who want to make themselves attractive can make an absolute certainty of it by using HAGAN'S MAGNOLIA BALM, and we know of no other way. It is the cheapest preparation in the world, all things considered and may be had at any drug store
